

Welcome to BrighterShop!

How to Install or Update:

Use the Installer/Updater (INSTALL_BShop_Au103.fp7) to update an earlier version of BrighterShop or to install a Free Trial of BrighterShop.

If you are updating an earlier version, be sure the Installer/Updater is in the same folder as BrighterShop before you begin.

Open the Installer/Updater in FileMaker 9 or 10.

In the password dialog, enter:

account name: owner

password: owner

Be sure to type the word "owner" in both boxes, all in lower-case letters.

BrighterShop, a database solution that runs in FileMaker Pro, contains everything you need to manage the inventory of your independent retail store, all on you Mac or Windows computer.

BrighterShop Au is a version of BrighterShop made exclusively for Australia, co-developed and tested by Australian retailers to meet the needs of Australian businesses.

With BrighterShop Au, you can:

- Ring up Sales, with or without a scanner
- Create Purchase Orders
- Immediately look up Inventory counts
- Print Custom Barcodes
- Sell and Redeem Gift Certificates
- Grant and Redeem Customer Store Credit
- Track the buying history of Customers
- Get Fast, easy-to-read Summary Reports

The only extra equipment you'll need is a desktop printer.

Thanks to the networking capabilities built into FileMaker, you can use BrighterShop simultaneously from more than one computer.

Requirements:

A Macintosh or Windows computer with FileMaker 9 or 10 installed
(If you don't have FileMaker, you can get a trial at FileMaker.com)

Desktop printer

Basic knowledge of how to use FileMaker

(optional) Barcode scanning device with input cable to your computer

Note about credit and debit cards: BrighterShop does not process credit cards. You can easily record information about credit transactions in BrighterShop, but you will need your own processing equipment and service provider.
